

TRAN PHUONG NAM

Frontend Developer (Fresher)

0363 807 312 | phuongnamtran2812@gmail.com | Tan Son Nhat, HCMC | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Software Engineering graduate from HUFLIT seeking a Fresher Frontend Developer position. Solid command of HTML5, CSS3, JavaScript (ES6+) and React.js; hands-on internship experience converting Figma designs into pixel-perfect UIs, integrating RESTful APIs, and optimising front-end performance. Practical exposure to Tailwind CSS and responsive/mobile-first development; actively learning TypeScript and Next.js. Quick learner with high accountability, strong teamwork, and familiarity with Agile workflows.

EDUCATION

Ho Chi Minh City University of Foreign Languages – IT (HUFLIT)

2022 – Apr 2026

Bachelor of Information Technology – Software Engineering | GPA: 3.2 / 4.0

- Key coursework: Software Development, Web & Mobile Programming, Databases, Algorithms & Data Structures

WORK EXPERIENCE

Frontend Developer Intern – Smart Ads (Media & Advertising)

Dec 2025 – Apr 2026

- Built and maintained responsive web UIs using HTML, CSS, JavaScript, and React.js; converted Figma designs into pixel-perfect pages
- Integrated RESTful APIs into the frontend – data fetching, processing, and display; gained practical understanding of request/response flows applicable to Java/.NET backends
- Optimised page-load performance and resolved UI bugs through guided code reviews with senior developers in a real project environment
- Developed landing pages and interactive ad banners for client campaigns

PROJECTS

BookStore Application – MERN Stack | Nov 2025

github.com/phuongnam281204/bookStoreApp-master | Live: bookstore.brazet.me

- Built a fully responsive React.js SPA with Vite, React Router, TailwindCSS, DaisyUI, protected routes, and Context API for authentication and cart state management
- Developed RESTful APIs using Node.js, Express.js, MongoDB, and Mongoose for books, users, orders, vouchers, inventory, and reviews
- Implemented JWT cookie authentication, bcryptjs password hashing, user/admin authorization, Google OAuth login, and email-based password reset
- Created a complete e-commerce flow with product browsing, cart, checkout, shipping address, voucher discounts, COD/VNPAY payment, order history, and real-time toast notifications
- Built an admin dashboard for managing books, orders, users, vouchers, inventory, stock levels, reserved quantities, sold counts, and inventory logs
- Supported book ratings and reviews from verified purchasers
- Deployed the full-stack application to AWS EC2 with production domain configuration using bookstore.brazet.me

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Vite, AWS EC2

Amazon App – Flutter/Dart Cross-Platform | Jul 2025

github.com/phuongnam281204/Amazon-

- Developed a Flutter e-commerce mobile app with Admin/User workflows, including authentication, product management, ordering, notifications, and livestream shopping
- Built a Node.js/Express RESTful API with MongoDB/Mongoose backend and Socket.IO service for realtime features
- Implemented secure authentication with JWT sessions, bcrypt password hashing, role-based access control, and OTP reset-password flow
- Delivered core shopping features including product/category search, cart, wishlist, checkout with Online/COD payment, order tracking, and cancellation requests
- Built admin tools for product/order CRUD, notification management, realtime rating updates, revenue analytics, and livestream product selling

Tech Stack: Flutter, Dart, Provider, Node.js, REST APIs

SKILLS

Frontend: HTML5, CSS3 (Flexbox, Grid, Animation), JavaScript (ES6+); React.js (React Router, Context API, Hooks); Responsive design & mobile-first approach; Chrome DevTools – debugging & performance optimisation.

Backend & API: Node.js, Express.js; RESTful API design & integration; MVC pattern; JWT & OAuth2 authentication.

Learning / Exploring: Java Core, Spring MVC, Spring Boot; ASP.NET MVC, Entity Framework.

Database: MySQL, MongoDB, SQL Server — schema design, query writing, backend integration

Mobile: Flutter/Dart – cross-platform development (Android, iOS, Web, Desktop)

Tools: Git/GitHub, SVN (basic), Vite, Figma, Canva; familiar with Firebase, Docker, and AWS

Soft Skills: Logical thinker, proactive, highly responsible, strong teamwork, fast learner

LANGUAGES

English: TOEIC 510, currently improving English communication and technical reading skills
